**DETAILED ACTION**

1. Cancellation of Claims 1-28 and insertion of Claims 29-48 in Paper #3 entered 25 October 1999 is acknowledged. Claims 1-28 are canceled and Claims 29-48 are pending.

***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 29-46, drawn to a method of producing a transgenic plant, which expresses a fungicide binding antibody, an expression cassette comprising a gene encoding a fungicide binding antibody, a plant transformation method with said expression cassette and a transgenic plant thereby obtained.

Group II, claim(s) 47, drawn to a method of controlling pathogenic fungi with a transgenic plant that expresses a fungicide-binding antibody.

Group III, claim(s) 48, drawn to a fungicide-binding antibody.

3. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Claim 1 (Group I) is broadly drawn to an expression cassette comprising a wide genus of genes that encode fungicide binding antibody proteins. Therefore, there is no single special technical feature under PCT Rule 13.2, which links the expression cassette of Group I and the fungicide binding antibody of Group III.

The plant transformation method with an expression cassette comprising a gene encoding a fungicide binding antibody of Group I and the method of controlling undesirable vegetation with a transgenic plant which expresses a fungicide binding protein of Group II are distinct methods with different starting materials and different method steps.

Therefore, Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
